*The perfect way to get your business
up and running online
without a lot of cash, time or hassle.*

An IdeaStarter Xpress site is the perfect way to to get your business up and running online without a lot of cash. A completely built site that gives you everything you need so you can begin capturing "suspects" and converting them to "prospects."

The It'sMyIQ website builder tool is a fast and easy HTML wizard that allows It'sMyIQ website customers the unlimited ability to update and manage their text and images with no HTML website programming knowledge necessary. Users can search from a nearly unlimited gallery of design templates and free images. Adding your company name and logo with the HTML site design tool is fast and easy, to give your professionally designed template and free images a polished, custom look. Other options such as SEO (search engine optimization), secure e-commerce shopping cart, and search tools help you build the custom, professional website your online business needs.

Your customers can view your photos, search for your products, and shop your custom professional web site with reliable, secure e-commerce.

Design a new website for your current domain, or It'sMyIQ can help you set up a new domain address. Fast and easy is the name the game.

The web site building tool functions like a site editor wizard that lets you securely edit your professional web site content including: text, photos, other images, SEO (search engine optimization) keywords, as well as other advanced tool functions.

Choose the colors and the images that are just right for your professional, e-commerce enabled website. Search the nearly unlimited gallery of free images, colors, and navigation designs. Select your site design layout including web navigation colors and design. Next, upload image files of your company name and logo design. It's safe, fast and easy, with no HTML programming necessary.

Your It'sMyIQ Site Includes Features You'll Find In Expensive, Fortune 500 Websites.
